DupocBot recognizes itself, unexploited
Grid: population ends cooperative
ends defecting
Above: DupocBot defects against itself, it no longer recognizes a fellow cooperator
DupocBot's mass facing itself
Inside: cooperation
can be an equilibrium
facing OBot
facing DefectBot
At t = 0 all three masses are 3/8
Below: DupocBot cooperates with a defector, which exploits it
Caution α, and DupocBot's mass
